

Can You Name These Ships?

Submitted by: George D. Hauber, Sr.

Ships are often the subject matter for topical studies and/or collections of all types, both 2-dimensional in forms such as stamps, prints, paintings, and murals, and 3-dimensional in the form of models, sculptures and even the real thing. Here are a few stamps to test your knowledge of history and the sea-faring ships that have sailed some of the seven seas.
